

29TH ANNUAL CONFERENCE OF THE INTERNATIONAL SOCIETY FOR CLINICAL BIostatISTICS

Copenhagen, Denmark, 17 – 21 August 2008

The Society was founded in 1978 to stimulate research into the principles and methodology used in the design and analysis of clinical research and to increase the relevance of statistical theory to the real world of clinical medicine.

The 29th Annual Conference in Copenhagen will provide a forum for the international exchange of theory, methods and applications of biostatistics in medical research and practice among clinicians, statisticians and members of other disciplines, such as epidemiologists, clinical chemists and clinical pharmacologists, working or interested in the field of clinical biostatistics.

All participants are invited to submit abstracts for contributed papers. Contributed papers are welcome in any area of biostatistics, epidemiology and related topics. Deadline is 1 March 2008.

Invited sessions will be held during the week from Monday 18th August to Wednesday 20th August.

- **Opening plenary session: State-of-the-art lectures**
- **Causal models and evidence from non-randomised studies**
- **Recent developments in genetics**
- **How to analyse an adaptive trial: Tests, estimates and confidence intervals**
- **Biomarkers, qualification and application**
- **Special session: Working places in biostatistics**
