

**IAP NETWORK WORKSHOP**

**MISSING INFORMATION IN SURVIVAL DATA  
BEYOND RIGHT CENSORING**

**Ghent University, Belgium, 18 – 20 Septembre 2008**

The Belgian IAP (Interuniversity Attraction Pole) network organizes a workshop entitled “Missing Information in Survival Data Beyond Right Censoring” in Ghent University, Belgium, on 18-20 September 2008. It focuses on new methodological developments for survival data if specific information is absent, such as in interval-censoring, semicompeting risks and frailty models. Keynote speakers include Rick Chappell, Jianguo Sun and Jerry Lawless. For further information, registration and abstract submission, see <http://vetstat.ugent.be/IAPworkshop> or contact the local organisers Luc Duchateau ([Luc.Duchateau@ugent.be](mailto:Luc.Duchateau@ugent.be)) and Paul Janssen.
